

Big Bocs Bwyd at Cwmfelin Primary School

Spring 2022

What is happening?

- Cooking sessions are now taking place in classrooms, with food provided by the BBB. Pupils are learning food prep skills and tasting a broad range of foods.
- Celebration days are marked by trying new and interesting foods from a variety of cultures. Pupils made food to celebrate Chinese New Year and St David's Day.
- We supported the Ukraine Crisis Appeal by matching the donations of our customers over a two week period and sending the money to the British Red Cross.
- We are continuing to embed the BBB in our curriculum and build on our whole school approach.

Upcoming next month in our BBB

- Initial volunteers have completed the security checks and will begin to support the running of the BBB this term.
- Classes will begin planting and growing produce to supply the BBB.
- We will continue to build our team of volunteers so that BBB can open more flexibly.

Making a difference in our Community....

- Bokashi composting bins are being setup to help us deal with food waste in a environmentally-friendly and sustainable way.
- All Cwmfelin pupils sample fresh fruit from the BBB, on a regular basis, using donations received from FareShare.
- Developing cooking packs/ recipes and ideas to help parents have meal ideas to use at home while promoting healthy eating and reducing food waste in the community.

'We are so grateful for having a BBB in our community'
